

I would like to send out a big thank you to Southern Corrosion of Roanoke Rapids, North Carolina. I recently had a major and unexpected issue with one of our water tanks that required immediate attention. I tried unsuccessfully to get another company to evaluate the problem.

My luck changed when I placed a call to Tom Delbridge with Southern Corrosion. We spoke on a Thursday morning and a tank inspector visited the tank before the end of the day to diagnose the problem. The following Saturday morning a crew arrived on site and inspected, repaired, and cleaned the tank. They did an outstanding job and I was really impressed with how fast the issue was addressed.

Once again, I would like to say a big thank you to Tom Delbridge and Southern Corrosion for their outstanding customer service.

Sincerely,

Frank Davis
